Surveyor General's Office, 1868 *Emperor of the Five Rivers* Mohamed Sheikh, 2017-03-17 In 1801 at the age of just 20 years old Ranjit Singh became the Maharaja of the Punjab Empire and subsequently became one of the greatest figures in the history of India He was a fiercely brave leader capturing the city of Lahore before becoming Maharaja and overcoming a variety of challenges during his 40 year rule such as harsh terrain an ethnically and religiously diverse population and strong aggressors including the British and the Afghans Despite such challenges Ranjit Singh was able to unite Punjab's various factions yet rule a nation that was strictly secular the Maharaja was benevolent to his subjects no matter their ethnicity or religion and sought to promote interfaith unity through policies of equality and non discrimination Aside from building his own nation Ranjit built solid strategic relations with his most challenging aggressor the British Through stamina and political will he managed to establish a formal treaty between the two and secured from 1809 Britain's protection against third party attempts to conquer the Punjab Following Ranjit Singh's death in 1839 the Empire fell into decline Just six years later the Punjabis attacked the British and in 1845 they were beaten and forced to sign the Treaty of Lahore essentially conceding control to the British Ranjit Singh's personal characteristics and leadership skills were what held the Punjab nation together in a tumultuous period in history Mohamed Sheikh's new account of Singh's life illustrates these characteristics and skills and illuminates the man who singlehandedly created and sustained the Empire *Map Book of the Punjab* Memoona Arslan Bhatti, Madiha Arslan, 2020* **District & States Gazetteers of the Undivided Punjab (prior to Independence)**. Decentralization and Intrastate Struggles Kristin M. Bakke, 2015-06-04 There is no one size fits all decentralized fix to deeply divided and conflict ridden states One of the hotly debated policy prescriptions for states facing self determination demands is some form of decentralized governance including regional autonomy arrangements and federalism which grants minority groups a degree of self rule Yet the track record of existing decentralized states suggests that these have widely divergent capacity to contain conflicts within their borders Through in depth case studies of Chechnya Punjab and Quebec as

well as a statistical cross country analysis this book argues that while policy fiscal approach and political decentralization can indeed be peace preserving at times the effects of these institutions are conditioned by traits of the societies they are meant to govern Decentralization may help preserve peace in one country or in one region but it may have just the opposite effect in a country or region with different ethnic and economic characteristics
