Studying Singapore Before 1800 Chong Guan Kwa,Peter Borschberg,Benjamin J. Q. Khoo,Shengwei Xu,2018

Historians rely on Singapore's strategic position to explain its great success as a royal trading port in the 14th century, and as a British colony after 1819. What, then, accounts for the many centuries when it seemed not to thrive, and was seen in the words of John Crawfurd as only the occasional resort of pirates? This seeming paradox sits uneasily at the heart of Singapore historiography, and over time historians have suggested a variety of ways to resolve it. This volume collects studies about Singapore before 1800, bringing together different efforts across the 20th century at reconstructing Singapore's missing years. Some authors have found additional details by scouring ancient and early modern texts for references to Singapore, and by reading well-known classics such as the *Sejarah Melayu* against the grain. Others have built narratives that bridge pre- and post-1800 perspectives by positioning Singapore within long-term global history. These efforts have yielded a much richer understanding of Singapore's changing fortunes before 1800. The articles collected in this volume represent milestones in this effort. Many are hard to locate, and two pieces are translated from Dutch to English for the first time. The collection is presented here with an introduction from historian Kwa Chong Guan. Book jacket.

A General History Of The Chinese In Singapore Chong Guan Kwa,Bak Lim Kua,2019-06-21 A General History of the Chinese in Singapore documents over 700 years of Chinese history in Singapore, from Chinese presence in the region through the millennium-old Hokkien trading world to the waves of mass migration that came after the establishment of a British settlement, and through to the development and birth of the nation. Across 38 chapters and parts, readers are taken through the complex historical mosaic of Overseas Chinese social, economic and political activity in Singapore and the region, such as the development of maritime junk trade, plantation industries, and coolie labour, the role of different bangs, clan associations and secret societies as well as Chinese leaders, the diverging political allegiances including Sun Yat-sen's revolutionary activities and the National Salvation Movement leading up to the Second World War, the transplanting of traditional Chinese religions, the changing identity of the Overseas Chinese, and the developments in language and education policies, publishing, arts, and more. With 'Pride in our Past, Legacy for our Future' as its key objective, this volume aims to preserve the Singapore Chinese story, history and heritage for future generations, as well as keep our cultures and traditions alive. Therefore, the book aims to serve as a comprehensive guide for Singaporeans, new immigrants and

foreigners to have an epitome of the Singapore society. This publication is supported by the National Heritage Board's Heritage Project Grant. Related Link(s)

Singapore and the Silk Road of the Sea, 1300_1800 John N. Miksic, 2013-09-30 Beneath the modern skyscrapers of Singapore lie the remains of a much older trading port, prosperous and cosmopolitan and a key node in the maritime Silk Road. This book synthesizes 25 years of archaeological research to reconstruct the 14th-century port of Singapore in greater detail than is possible for any other early Southeast Asian city. The picture that emerges is of a port where people processed raw materials, used money, and had specialized occupations. Within its defensive wall, the city was well organized and prosperous, with a cosmopolitan population that included residents from China, other parts of Southeast Asia, and the Indian Ocean. Fully illustrated, with more than 300 maps and colour photos, Singapore and the Silk Road of the Sea presents Singapore's history in the context of Asia's long-distance maritime trade in the years between 1300 and 1800: it amounts to a dramatic new understanding of Singapore's pre-colonial past.

The authors, drawing on research undertaken in collaboration with the National Museum of Singapore, have woven together ancient chronicles, eyewitness accounts, oral histories and even modern radio and television broadcasts to create a vivid and compelling narrative that brings the past back to life. The British author expresses many personal opinions and uses a wealth of anecdotes and literary quotations as he sets out the narrative. Raffles of Singapore Sir Reginald Coupland, 1946

The History of Singapore, 1956

The Singapore Necklace Jaim Kaan, 2012-05-10 THE SINGAPORE NECKLACE Storyline The narrative took place in 1914 Singapore in a span of ten months. A part of the British Straits Settlements finding itself well into the age of the industrial revolution, due to the opening of the Suez Canal and thanks to the island's unique location, Singapore grew rapidly into an important thriving trading post. The city has put itself together into a shipshape and organized place of commerce but also a proper place of living the infrastructure kept abreast of the business development; roads were built, electricity network replaced gas lights, water was pumped and piped to industries and residences - but also telephone, telegraph and postal services were part of daily life. The love story evolved not only in a place where western quality of living was injected catering for colonial life clubs, a horse race-course, sports grounds, and department stores sprung up besides markets, cinemas, parks, schools and churches but the account occurred in an era when Victorian morality of restraint, rigid social codes of conduct and class system has been instilled. Residential areas were separated based on race, non-europeans were barred from certain places and were discouraged from travelling first class. A love between a European and one from another culture wasn't quite tolerated then, certainly so were that bond between two men. In a historic era, just two years after the sinking of the Titanic, in the period the 1st World War unleashed in Europe and the year that the famous Singapore Sling was conceived, two young men living in Singapore - a British and a Chinese - discovered feelings for one another that they couldn't comprehend themselves. As their curiosity prevailed the mutual fondness blossomed in the midst of a tropical setting letting trams, rickshaws, cars, trains and boats transport them on their fine journeys and experiences. The sombre ending of the union was all to blame on the nasty World War spreading its negativity to the colonies. But in a twist of fate and after a long wait in limbo, the two lovers were united, free at last.

The History of Singapore Jean Abshire, 2011-03-21 This book overviews Singapore's fascinating history from the precolonial era to the present, examining this wealthy island nation from economic, political, cultural, and social perspectives. Singapore is a dominant player in the global economy, serving both as an essential business hub for international finance and home to some of the world's most important ports. It is also one of the world's smallest and most resource-poor countries. This book offers an engaging examination of Singapore using a theme of globalization to explain how the country's worldwide interactions across centuries have resulted in an ethnically diverse society and allowed it to ascend to a position of being an economic powerhouse. Every significant historic event and era—from its status as a meeting

point for traders in the 600s to its colonization by the British in 1819, and from Japanese occupation during World War II to the 2002 arrest of a group of Islamic terrorists—is covered.
